# BRITISH SAY NORWAY WAR LOST

## ITALY MAY ATTACK TO HELP GERMANY

England and France have lost the war in Scandinavia.

By the simple admission of Nevile Chamberlain, the British Prime Minister, who told the House of Commons to day that the Allies have lost the war to Germany in Norway, the first phase of the so called European conflict, becomes a Nazi victory and Adolph Hitler is marching on.

Mr. Chaberlain, aged statesman who ran away from war at Munich, was a pathetic figure as he pleaded with the House to have patience while admiting the loss of Norway.

Allied troops are now evacuating central Norway.

The Germans are in complete control of Southern and will soon possess Central Norway.

The Allies, according to Chamberlain, have abandoned any idea of capturing Trondheim. The key port of the northern coast now goes undisputed to Germany.

As the British and French were deserting their Norwegian comrades and leaving them to the Nazi hordes, the danger of Italian entry into the war became more acute.

Italy to day was reported to have massed 110 submaries near the isle of Sicilly not far from the Suez and within striking distance of the Dardenelles and the Greek and Turkish coasts.

The Italian ambassador in Washington was calling on President Roosevelt and Secretary Hull today

Italy was believed now ready to enter the war with Germany.

Benito Mussolini's newspaper, The Italian People, indicated strongly today that the time has come for Italy to fulfill the alliance with Germany.

The British Fleet was reported to be steaming into the Mediterranean with strong contingents of the French fleet.

Spain may enter the war on the side of Italy and Germany as General Franco is believed to be obligated because of the German and Italian aid during the revolution.

Gibraltar in case of German victory would go to Spain.

Italy may close the Suez canal by attack and catch the big Italian Lake by surprise when large portion of the British naval strength is caught away around the Isles and in Scandinavian waters.

There were no details today of the naval battle in the Skaggerak. Reports were unconfirmed that a naval battle was going on in the Kattergat.

There was growing belief that Turkey, now wavering because of British and French weakness, may desert the allied cause, if the war spreads to the near east and the Mediterranean.

Italy was reported concentrating troops in Albania and along the Jugoslav border.

Germany's general staff is believed to have abandoned any idea of attacking on the Western Front and by Italian, aid take the war into the Balkans and blast a new empire with an oulet to the Black sea and the Mediterranean.

In London there was much gloom. Old men with umbrellas and long black coats were completing the picture of impotency. Next week Winston Churchill is to speak and Chamberlain has promised to report on further reverses next week.

There was belief that the British would abandon any further effort to aid Norway.

## Census for Cameron Complete; Enumerators Ask Full Co-operation

Conmpletion of the 1940 census in the city of Cameron was reported here today by Miss Katherine Hefley, prominently identified with the enumeration.

Miss Hefley requested publication of an appeal to the citizenship for additional co-operation to the extent that all who have not yet been enumerated, contact any one of the following: Miss Mary Burns, Mrs. H. G. Cooper and Miss Katherine Hefley.

While the canvass has been completed it is possible that the enumerators failed to see all of the people and it is important that if there are any remaining who have not been seen that they contact the committee in order to make the census entirely complete.

## First Date to File Campaign Expense Account is June 27

In the course of a political campaign the law expressly directs that on specified dates expense accounts must be filed with the county clerk.

All candidates for office from precinct to the highest within the county should file campaign expense accounts.

The law places limits on expenditures and any candidate who exceeds them is amenable under the statute. There has always been some confusion regarding this particular statute as it relates to the smaller offices, but a good policy to pursue is to be safe rather than sorry.

In accordance with the announced plan of the Cameron Daily Herald the publishers are bringing day by day this information for those who are condidate for public office.

June 27 is the first day on which campaign expense accounts for the first primary may be filed and July 2, is the last day campaign expense accounts may be filed for the first primary to comply with the law.

Candidates may file this information and thus be reminded of this important and necessary compliance with the law.

# Politicians Eye May 4th Conventions

### DISTRIBUTING THE LITTLE DIALY

Since the Midget Daily was established in June 1939, the publishers have tried earnestly to arrange a schedule of distribtion which would be as nearly just as possible and at the same time take into consideration that the little paper was not to incur extra overhead charges.

In attempting to accomodate every section of the city we soon found that we were required to engage in automobile delivery. This not only required time but is an expense never contemplated.

In order to be stable and permanent in our policy we have discontinued distribution of the Little Daily to any point in the city where automobile is required. This necessitates inconvenience to many but we feel that in as much as the paper is printed free and without subscription cost, it is only fair that we make every effort to keep its finances on the black side of the ledger.

The Little Daily is here to stay. Please do not censure us for declining to make a city wide distribution. The Publishers will be glad to arrange distribution to any section of the city, within reason with any one interested enough to call at the Herald office.

It should be realized that advertisers who spend their money with us are making possible the publication of this little newspaper. Those who do not see fit to patronize it should not expect the same consideration as those who are actively supporting the publishers' efforts to give Cameron a Daily newspaper.

If you do not receive the Little Daily at your place of business you will please bear with us and understand that demands are coming in from everywhere, including the rural districts, for this little newspaper and in justice to all the people we find it necessary to place these papers at other points as well.

Any change in the future will be made without notice.

## CLOUD BURST REPORTED ON SAN GABRIEL RIVER

Rainfall of 3.80 was reported in Cameron Monday morning.

The rain, reported to be very heavy in some sections, had brought flood stage to Little River in Cameron when waters from Sandy Creek, San Gabriel River and Brushy reached the channel near the city.

Unconfirmed reports said that rainfall at Taylor and on the water shed of the San Gabriel were of cloud burst proportions and high water stage in Little River is expected for the next 48 hours.

It was reported that approximately 3 inches of rain had fallen on the water shed of the Lamasas River but this could not be confirmed.

R. A. Tag, local observer, reported the rainfall for Cameron. Benefits to growing crops and for planting cotton and grain will be immeasurable, the most timely rain that has fallen in this section in several years.

A social write up in the Austin American was given as "one of the largest attended and most elaborate affairs of the week" was the reception at the Women's Club rooms, at which time the University Dames were hostesses. Mrs. Leo Wilkerson, formerly of Cameron, headed the receiving line and with her stood Mrs H. P. Rainey, Mrs. L. C. Click, president of the University Ladies Club of Austin, and a number of Austin ladies. Daughters of the University Dames were present and assisted in the hospitalities, naming Misses Zora and Leola Wilkerson among the many other girls present in the house party. Mrs. Wilkerson has many friends in Cameron who are anxious to hear of the University work and social activities.

On Saturday, May **4th, Precinct** Presidential Primary **Conventions** have been called in **each of the 49** voting boxes of the **county.**

The political **complexion of these** conventions in 1940, **will be unlike** that of any within the **memory of** any Democrat now living. **People** of all political faiths will **be seated** in these conventions and **Democrats** will be in the mionority.

With few exceptions the **conventions** are not expected to **reflect the** sentiment of the average voter. **They** never do. A politician always **celebrates** on convention day.

The average voter is **considered** legitmate prey for politicians **who** already know substantially **in every** case just what should and will **be done** at these conventions.

In every convention the **politician** "rises to the occasion." By **previous** arrangement with those **who are** "looking ahead" he will have **drawn** a resolution declaring for or **against** an instructed delegation as **his de**mands may be.

The conventions will be **shot** through with conflicting **sentiment,** but due to the **fact** that the average voter declines to attend **his precinct** convention and the **further fact** that he is awed or lacks **sufficient** information concerning **procedure** will submit to most any kind of **action** by a political convention.

If after the conventions are **held on** Saturday, May 4th, and the **various** precincts fail through **ignorance of** what is required of them in order to give accurate expression to **the** political sentiment of their community, find that the county delegation is captured and used contrary to the expressed will of the majority, they will have no one to blame but themselves.

Each convention should pass a resolution binding those delegates to vote the sentiments of the community represented and unless they do so the county convention will not reflect the sentiment of the people.

# BRITISH FORCE OUT GERMANS AT NARVIK

War in Scandinavia had become bitter and devastating today as two hugh armies nearing a decisive struggle, spurred on by age old hatreds and the necessity for quick action.

The Germans were unleashing a blitzkreig against the English, their pet hatred in this war and were reported slicing through with great show of power and destructive fighting.

On the extreme northern front it was reorted that French troops had stabilized their section, meaning that the German onslaught had met with French valor.

The Germans were driving the British back to the North Sea and have taken the railroad at Dunlos.

The Germans were able to take their objectives in this section but at great loss of life. Heavy German losses in men killed were reported.

The only successes reported by the British was that German troops have been forced to withdraw from Narvik. This was also announced in Berlin where the Germans said British warships had made the city untenable for their troops and the Germans have taken up new positions along the Narvik Fjord.

In the Skaggerak, witnesses said that 12 warships had been sighted. According to best reports available they are German warships. If this be true, a naval battle is in prospect and may now have flared into destructive fury in the waters around Oslo.

The British have not as yet placed their best naval units in Scandinavian waters.

The Germans may be moving to attack the British fleet at Narvik.

In the the House of Commons today Neville Chamberlain the British Prime Minister and Sir. Oliver Stanley, refused to answer certain questions propounded by members.

It was agreed that the Prime Minister had refused for strategic reasons, that to anhwer might disclose war plans.

On the whole there was one general agreement: The war in Scandinavia must be brought to a speedy close if Germany is to have a victory. On the other hand the British and French seem satisfied to go about the business in a conservative way and to prolong the fight.

Trondheim was still in the hands of the Germans and there was no serious belief that it could or would be taken by the allies soon.

Czech and Polish troops, men who have been made soldiers without a country by Nazi Germany, were on the fighting fronts in Norway. A British officer said the men had advanced to the attack in heroic and effective fashion, anxious to be a part of the fight on Germany. It will be recalled that the Poles were crushed by Germany and the Czech nation was taken over without resistance.

A British report said that allied troops and supplies are now reaching Norway in a steady stream, indicating that the race is on for man power advantage.

A Swedish report said that Germany has 60,000 men in Norway. The Allies have 45,000. The Germans are better equipped and their air power is systematically destroying Norwegian towns in the vanguard of the army.

## Dates for Filing Expense Accounts Are Given Candidates

On July 15, candidates are required by law to file their second campaign expense account for the first primary.

Four days later on July 19, the time limit expires for the second campaign expense account for the first primary.

Forms for filing these accounts should be furnished by the Democratic Executive Committee because all supplies for the election should be paid from the fund which is assessed against the candidates.

On July 28, the third and final expense account for the first primary is due and on July 30th the time limit expires for filing the last expense account due for the first primary.

This information completes all necessary data required by candidates on filing expense accounts. All expense accounts must be filed with the County Clerk.

# AMERICAN ROME ENVOY SEES MUSSOLINI

England and France today were face to face with defeat in Scandinavia.

The lighting army of Adolph Hitler, now engaged in remaking the world, seemed certain to knock the Allied armies smack out of Norway, or kill and capture the entire expeditionary forces.

Norwegian soldiers by the wholesale were reported in Berlin dispatches to be falling into the hands of the Nazis, indicating as certain that resistance in Norway is fast collapsing.

Hourly it was believed that England would announce abandonment of the campaign or admit defeat with the vain hope of holding on for a miracle.

There was a growing belief in Europe that Italy was ready to join in with Germany in an effort to put an end to the war with a quick defeat of the British and French.

Based upon results thus far it appears certain that the Allies have lost the war and the sun in setting on the British empire. There was a dread, unexplained silence and incompetency on the part of the British and London was the gloom town of the world as Hitler continued with his successes, all but completing his conquest of Norway.

In Rome the Amercian Ambassador, William Phillips, saw Mussolini. For almost three years Mussolini has not seen any representative accredited to Rome except the Germans. Speculation was rife over the visit of Phillips.

Capitulation to Germany by neutrals including the United States as a means of avoiding war was almost a certainty. Unless the war takes a different turn, there is no doubt that peace will come with a German victory within a few months.

Feebly enough was the Allied statement that Narvik is soon to be captured. Narvik is a far north iron ore port and would be of strategic value if the Allies were able to hold it against the superior Germans.

The Allies reported that the Germans had been dislodged in a few sections but nothing was showing up as impressive about the British and French aid to Norway.

French troops have with drawn from Domas, the first victory of the Germans over the French in Norway.

The British Commander in Chief said everything is satisfactory, probably meaning that the Germans had satisfactorily defeated the Allies at every turn.

### RIVER RECEDING

Flood stage was believed to be averted in Little River as the channel continued to accomodate the waters from the Gabriel and other streams.

The San Gabriel was reported to be in banks and Little River was expected to be in banks late today or early tomorrow.

Hugo Boedeker of Ad Hall was among the business visitors in Cameron Saturday.

# MAY LOSE NORWEGIAN CAMPAIGN TO THE REICH

Failure of British air power to cope with German bombing planes ir Scandinavia was beleived by many observers Saturday to forecast loss of the Norweigian campaign.

The war in Norway had become a race between the British and Germans to secure supremacy in the air and there was grave doubt that the Allies could so bolster their offensive power in the north country.

The British for the first time since the war began had established bases for fighting planes by using ice floes in the Fjords all along the British held coast of Norway.

In Berlin today Foreign Secretary Von Ribbenthrop speaking to assembled diplomats and representatives of foreign countries, submitted what the Nazis claim is documentary evidence that France and England planned an invasion of Norway and that the Germans beat them to the draw by a few hours.

The speech, regarded in advance as an important development in the war, turned out to be another radio harangue, promptly deined in London.

In addition to the so called disclosures of the Scandinavia threats of the Allies Ribbethrop said that England and Franch have been promoting a steady campaign to dismember Germany and to bring all neutral countries to war against the Reich.

Around Trondheim in Norway events were moving swiftly toward a decisive battle between the Allies, Norwegians and the Germans. Trondheim, regarded as the most strategic port on the coast is the key to military advantage in Norway. The Germans were reported rushing re-inforcements to the scene of the impending battle while the British and French were said to be making preparations for the first decisive engagement of the war.

Allied airplanes continued to bomb German concentration centers. The Germans were making good headway and are reported to have pushed the British back at several points in Central Norway.

There was no indication beyond the center at Trondheim to indicate that the war has been speeded up. The British appeared to be following their traditional policy of conservative proceedure while the Germans were advancing in all sectors in their accustomed lightning war.

"Young Tom Edison," starring Mickey Rooney in a picture that has swept the nation in a wave of popularity opens Thursday at the Cameron Theatre.

While the picture is filled with many humorous situations as only Mickey Rooney himself can create them it has its serious side in the first screen study of Thomas A. Edison, the great American inventor.

It is interesting to note that the succeeding picture on the life of Mr. Edison stars Spencer Tracy and the picture has been booked by Stanley Swift on June 2 and 3.

John Watson of Houston was in Cameron for the week end visiting his parents, Judge and Mrs. John Watson.

# DISCONTENT SPREADS IN ALLIED CAPITALS

Allied reverses in Scandinavia were having their effect in Britain and France and one observer in the British Capital went so far as to predict that unless the Anglo French army can score a victory and take Trondheim, regarded as the key to aid for Norway, the governments of England and France will fall.

Through Saturday and Sunday reverses dogged the Allied efforts and it appeared that Germany, would throw the Anglo-French armies right off of the Norwegian coast and give Trondheim the protection necessary for its resistance against all odds.

German air power continued to blast away at British and French transports and strafing landing points kept the war definitely an offensive by the Germans and of course greatly to their advantage.

In England there was increasing clamor for information on the fighting in Norway. The government was being sharply assailed. The people were tiring of getting their news from neutral countries.

Prime Minister Chamberlain will make a statement in the House Tuesday to report on the progress of the war.

The Germans issued a statement that 94 British ships have been sunk since the Norwegian invasion and said that the coast of Norway would be the grave yard for the British fleet. England denied any such toll had been taken.

German report from Berlin shortly afternoon Monday said that Nazi bombing planes had hit and damanged a number of British troop transports off the coast of Norway.

North of Trondheim, the British had stopped a German thrust in what was described as the largest engagement of troops since the war began. Some confidence in this report was expressed because it was substantially verified from Berlin where the Germans admitted their forces had been stopped by the British.

The Allies are fighting with increasing power. British patience was expected to take all manner of discouragmeent and time was believed to be the element needed. However, Germany's power to strike and her air superiority may decide the Norweigian campaign within the week and result in Allied defeat.

The British navy thus for has not struck any blow commensurate with its strength.

## Taylor is Convicted In Firey Trial for Cattle Theft Here

Guyon S. Taylor of San Saba, storm center of a wild and wooly trial in District Court here Thursday and Friday on a charge of cattle theft, was convicted and his punishment fixed at 2 years in the State Penitentiary by the jury, reporting at 9 a. m. Saturday.

The jury retired Friday night shortly after argument in the case had been concluded and it was not known at what time the verdict was reached.

When Judge Graham Gillis convened his court Saturday morning, the jury was ready to report and the verdict was read. Taylor was recommitted to jail.

The trial was a typical Texas court room episode in which the flare for dramatics was fully exercised and enjoyed by the fifth column who take with engaging humor these lasting impressions.

Walter E. Gates of San Saba in a brilliant defense of the convicted man was the "lone wolf" and got into heated argument with the Sheriff and District Attorney and will be remembered for a long time for his part in this 3 day trial in the court room here.

Taylor was indicted for stealing a cow from J. Z. Sandifer on Thanksgiving day in 1939, near Thorndale.

District Attorney Bill Morrison represented the state and the trial brought to Cameron nearly one hundred witnesses from San Saba and other places.

## Annual Burglary of Thomas Drug Store Occurs Here Friday

Annual burglary of the George A. Thomas & Sons drug store in Cameron occurred some time during the night of Friday, April 26.

Burglars gained entrance to this superb store by prying open the front doors presumably with a bar of iron. From the cash register the burglars took $8 in coins.

Rush A. Thomas said that within recent years the store has been robbed several times and its total losses to date approximate $6,000. A year ago burglars entered the store and took Elgin Watches to the value of $1200 and so far as known no arrests have been made.

Burglars also attempted to enter the New Cameron Drug Company but were unsuccessful. Signs that an effort had been made to force entrance were in evidence.

The burglary at the Thomas Drug Store was discovered early Saturday morning by Levi Knight, janitor, who notified Mr. Thomas, and city Marshall, Gene Smith, was called to investigate.

Mr. Thomas fully appreciates the fact that his store is still good enough to put ideas into the heads of robbers but is tiring somewhat of the persistency and regularity of this thing he refers to as the "annual burglary."

Some weeks ago robbers entered the Weems grocery and took $20 in dimes. So far the Daily Herald has not obtained any information in these cases.

### FUNERAL SERVICES FOR JOHN H. HEFLEY HELD IN BIG SPRINGS TODAY

Funeral services for John H. Hefley were held Saturday in Big Springs where he died on Friday night after a short illness.

He was the last surviving member of a large family of brothers. In reporting the survivors on Friday, the Daily Herald through lack of information, failed to publish that he is survived by his widow who was the former Miss Lula Rogers, aunt of Miss Jerusha Rogers and Goodhue Rogers of Cameron.

The late Jim Rogers, pioneer of this section and father of Miss Jerusha and Goodhue Rogers was a brother of Mrs. Hefley.

Mrs. M. E. Meyers is visiting her son, Edna Meyers, now living in Dayton, Texas, but plans to move to Mississippi around the first of May.

## NEWS FROM Bryant Station

Selection and arrangement of flowers will express our personality and taste more than words, Misses Ellen and Cleo Neal told guests at the April 25th meeting of the Bryant Station D. D. Club.

Purpose planning orders are the simple fundamentals through which fullest enjoyment and value of our Flowers may be realized. By purpose of flowers arrangement we mean, where flowers, fruits, or plants will add more joy to the home. By plan and order we mean that they fill the place for which they are best suited to give a deserved effort giving though always to harmony of colors. In order for flower containers to give the best effect, it should be simple in design.

Mesdames H. F. Glaser, Raymond Allison, Bill Tyrock and Lee Alley were visitors.

## Way "Build-up" Helps Will Interest Women

The cause of a woman's periodic suffering from headache, irritability, cramp-like pain, may be *functional dysmenorrhea* due to malnutrition, a condition that is often helped by CARDUI.

Principal way CARDUI helps is by stimulating appetite and the flow of gastric juices. Thus it may aid digestion; help build up a woman's strength, energy and nerve-force; so increase physical resistance to periodic discomfort.

It also helps reduce periodic distress for many who take it a few days before and during "the time." Your confidence in CARDUI is invited by its 50 years of popularity.

## CHRISTIAN SCIENCE SERVICES

"Everlasting Punishment" is the subject of the Lesson-Sermon which will be read in all Churchse of Christ Scientist, on Sunday, May 5.

The Golden Text is: "The way of the Lord is tsrength to the upright: but destruction shall be to the workers of iniquity" (Proverbs 10:29.)

Among the citations which comprise the Lesson-Sermon os the following from the Bible: "For the grace of God that bringeth salvation hath lusts, we should live soberly, righteously, and godly, in this present world" (Titus 2:11, 12.)

The LessonSermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Reason is the most active human faculty. Let that inform the sentiments and awaken the man's dormant sense of moral obligation, and by degrees he will learn the nothingness of the pleasures of human sense and the grandeur and bliss of a spirtual sense, which silences the material or corporeal" (page 327.)

The blessings of an active mind when it is in good condition, is, that it not only employs itself, but is almost sure to be the means of giving wholesale employment to others.

## THOUGHTS

Time is like money—the less you have of it to spare, the further you make it go.

Train yourself to control your contempt and your anger will never get you in trouble.

Man is only miserable so far as he thinks himself so.

Competition is just as afraid of you as you are of it.

# 'PRGORE SS BACKWARD" NEW ALLIED TECHNIQUE

For the third time in two days British troops were in full flight before the advancing German army and despite claims from London that the retreat has in no way endangered the allied position in Norway, it was believed that the British were making little progress and any confidence that the Anglo-French alliance could and would deliver a lightening thrust to get King Haakon out of the snow was falling far short and there was little hope that any immediate success would be realized.

From allied sources came the report that munitions and supplies are moving with less difficulty into the rough country along the northern shores of Scandinavia where the allies have succeeded in securing three debarkation points.

From Berlin also came the statement that the Germans are re-inforcing their armies rapidly and that three columns of Nazi troops were pushing rapidly in the direction of Trondheim where a decisive battle may be fought if the allies are in position to give battle to the efficient Germans.

The British continued to bomb several Nazi air bases in Norway and it was reported today that British pursuit planes in large numbers have reached Norway.

The allies have made progress backwards three times within the last 48 hours, being unable to stand up in the face of the German troops now rapidly moving to consolidate their positions and to secure Norway against attacks.

Americans in Rumania have been urged to return home at once.

A surprise dispatch from Yugoslavia said that it was currently reported in the Balkans that England had succeeded in bringing Russia and Yugslovia into close relationship. It was said that the Russo-Yugoslav commercial agreement has no political significance.

## Tempers Mount in Cattle Theft Trial In District Court

Guyon S. Taylor charged by indictment with cattle theft is on trial in District Court.

The trial is giving the citienship its first taste of court room procedure in a long time, being the first criminal case to attract visitors within recent months and on Thursday the testimony was controversial enough to bring considerable fireworks as Walter E. Gates, the defense attorney, grilled sheriff Kennedy and District Attorney Bill Morrison over the details of the confession which Taylor made shortly after his arrest and which he repudiated in court.

At one stage of the proceedings the sheriff became very angry over insinuations by the defense counsel and unleashed some choice Texas verbiage.

The defense attorney sought to prove that Taylor was coerced into making his statement but this was denied by officers.

According to testimony by Taylor he said he was taken to the office of Bill Morrison and there interrogated in the presence of two highway patrolmen, Sheriff Kennedy, Deputy Sheriff Clarence McCall, and the District Attorney.

Taylor is under indictment for stealing a cow on the 30th day of November 1939 from J. Z. Sandifer near Thorndale. According to officers Taylor took the cow to the Ft. Worth market and disposed of her and went to his home in San Saba.

The jury is as follows: O. F. Smith, F. W. Garrett, I. W. Smith, C. E. Holliman, Will Lake, John Meyers, J. A. Simington, F. E. Woodruff, Jesse Brock, Claude White, Gus Johnson and A. W. Kornegay.

Attorney Gates, a tall West Texan was giving the court its biggest thrill in sometime. He seems entirely capable of meeting most any situation that may arise under such controversial conditions now featuring trial of Taylor, the first big trial effort in some time to obtain a conviction for cattle theft.

Approximately one hundred witnesses are in attendance at the trial with more than fifty per cent of them coming from San Saba. The Taylor family is prominently identified in that section and a number of character witnesses are in Cameron. There are also a large number of witnesses from Milam county.

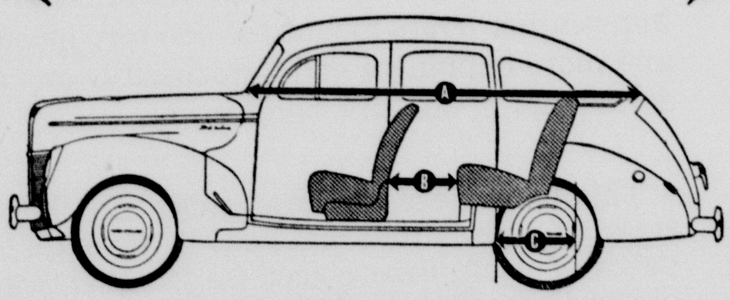
# ★MORE THAN BIG—
## it's big in the right places!

**Inside the car, where bigness really counts, you find a Ford V-8 *extra* "big for its size." Big by any measure, it's especially so at the important comfort points shown below. Check them now, then come in and try a Ford. It's got a lot of things like this that are just too good to miss!**



**A** **Measured** from windshield to rear window, a Ford Sedan is **100¼** inches . . . *this is longer than in a number of much higher-priced cars today!*

**B** **Kneeroom** for rear-seat passengers in a Ford is *considerably greater than that of any other car in its price class!*

**C** With its compact V-type engine, the Ford is designed to carry rear-seat passengers *farther ahead of the rear spring than any other car at this price—toward the center of the car where riding quality is best!*

SURPRISING is the word for a 1940 Ford! Surprising because it gives so much you wouldn't expect at its low price. Surprising all-round performance, as proved when it won the big 3700-mile Argentine Grand Prize Road Race. Surprising gas economy, as proved when it gave most miles per gallon of *all* standard-equipped cars at its price in the Gilmore-Yosemite Economy Run. Surprising in its big-car ride and room. Surprising in its long, long list of truly fine-car features. Come in today and get to *know* a Ford V-8!

**CHECK EQUIPMENT! . . . See how much more you get in a Ford at no extra cost!**
